

7 November 2017

To Whom It May Concern:

In her position as Analyst, Angelique Pietersen was employed with Focus Africa from 19 June 2017 until 9 October 2017.

During her tenure with our company, Angelique was responsible for the data analysis of a specific project and her post as analyst became redundant after termination of the project on short notice by the client. During this period Angelique gained knowledge on Semantica analyst software used by Focus Africa

She would add value to any company, and I recommend her for any endeavour she chooses to pursue. Please let me know if you have any other questions.

Yours truly,

J.J. SADIE
